

Bandsaw blades for portable sawmills and pallet resaws

The sharp choice for industrial woodworking

Munkfors is a family-owned Swedish company that is truly involved with cutting-edge technology. We lead the development of bandsaw blades for the woodworking and sawmill industries that sharpen your performance to gain a more competitive edge.

Unique profile-grinding technology

To produce the teeth of our top-quality blades that outperform most other brands, we use our own unique and patented profile-grinding method that gives:

- Sharper blades
- Cleaner cutting
- Longer blade lifetime
- Minimum downtime
- Very little material waste

Many benefits in industrial woodworking

The design, functionality and sharpness of our blades give you many benefits. They help to achieve your economic and product quality goals.

Teeth become chipped or lost, and gullet cracking typically occurs, both of which lead to bad sawing results, high downtime and short blade lifetimes. Using high-performance blades from Munkfors virtually eliminates these problems to give cost-effective manufacturing with minimum production downtime.

Bandsaw blades for portable sawmills and pallet resaws

We supply tough high-performance bandsaw blades of different teeth configurations and manufactured from the best strip steel available to ensure they cut easily through different wood qualities and logs.

Tooth-hardened blades

Width mm	Thickness mm	Pitch
25	1.05	19 mm
29	0.90	19 mm
29	0.90	2TPI
32	1.00	19 mm
32	1.05	19 mm
32	1.05	22 mm
32	1.05	25 mm
32	1.05	6TPI
32	1.10	22 mm
35	0.90	22 mm
35	1.00	22 mm
38	1.10	22 mm
38	1.25	25 mm/US
40	0.90	22 mm
40	1.00	22 mm
50	1.00	25 mm
50	1.10	22 mm
50	1.10	25 mm/US
50	1.25	25 mm/US

Ordering details

When ordering Munkfors products always specify the product family, for example Bandsaw blades for woodworking, as well as the desired width, thickness and configuration, such as 29x0.90-2TPI.

Orders can be faxed to the number below, e-mailed to mfsorder@munkfors.com or made online on our website.
